

## NOTE ON THE USE OF PHOTOGRAPHS

Please note that this material is being circulated for the personal educational use of the student of the *Travis Audubon Shorebird* class. Please do not distribute, copy, post, share, or further disseminate any of this material.

Most of the photographs used in these shorebird presentations are credited to Jeffrey E. Patterson. Other photographs are credited as indicated.

A photograph of three shorebirds standing on a muddy beach. The birds are arranged in a diagonal line from top-left to bottom-right. Each bird is labeled with a number and its name in a white box. The Least bird is at the top left, the Western bird is in the middle, and the Semipalmated bird is at the bottom right. All three birds have similar plumage with brown and white mottled patterns on their wings and backs, and black bills. The ground is dark, wet mud with some green algae or seaweed.
